RE: Documentary "After the Bugles"

Dear Mr. Babb:

The Disabled American Veterans Department of Massachusetts with the consent of the Department Board of Directors and the approval of the Department Executive Committee enthusiastically endorse your effort to produce a documentary & telethon entitled "After the Bugles".

We applaud your efforts to produce a documentary that will pay tribute to the courage, dedication, and honor the men and women who have served their country and suffered for their efforts. To make the public aware of the sacrifices made by these hero's, the shortcoming of the service needed upon returning home and how the public support can improve them.

The Disabled American Veterans Department of Massachusetts looks forward to working with you in the production of this documentary.

Yours Truly,

Daniel P. Stack
Dept. Adjutant
